Halgar Subbaiah of Kappa has stated in his petition to the Govt[t] dy 24.10.95 that Mr[r] Brett has unauthorizedly cultivated 19 A[s] 20 acres over & above the extent applied for by him - Mr[r] Brett has encroached & cultivated as alleged - Mr[r] Brett obtained 23 A[s] & 18 guntas out of S. No[s] 70 Soppina Betta & 12 A[s] & 2 guntas in its neighbourhood, on his Sharbast for coffee cultivation. He has been enjoying this extent as Sur. No[s] 86 & 88 in the Resurvey. He has not cut jungle near the place where the water flows (For this & other reasons). But he has cut 3 or 4 trees at one end for burning bricks. The place where he has cut lies within his holding.

Now an application has been received for 7 acres 10 guntas out of S. No[s] 71 which is a pomal. Though this bit has been surveyed yet its possession has not been made over (to the applicant). If 7 acres are granted out of this S. No[s] 71 which contains an area of 1.24 & 20 guntas, there remains 36 & 10 acres -

I heard my petn to the Govt dd 24.10.95 read out to me. I also heard the portion wherein it is stated that Mr Brett has unauthorizedly cultivated over & above the extent applied for by him, & also the deposition of Shanbogue Sumanta Venkatshetty. The statement regarding ~~unauthorized cultivation~~ encroachment was one written by me without enquiry. From subsequent information I learn that the Saheb (Mr Brett) has come by it (portion of the land) after getting it seperately numbered. This piece forms part of Survey No 70; ~~I have no objection for the disposal of this small portion~~ may give away. I only fear that if any portion out of that No should be given away in future for coffee cultivation I, who pay Rs 800 nearly & Kandayam will have to suffer loss for want of necessary leaves, dung & fuel &c for my 33 acres of arecanut garden & 70 acres of wet land. Though it may be said that 300 odd acres of this No belong to Govt, Yet it does not contain more than 60 or 70 acres of Jungle land. It is only this (latter) portion that can properly be styled Soppinabetta, The remaining portion is all a grassy plain fit for grazing purposes, as was stated by Shanbogue Sumanta

My complaint does not refer to the grants already made

land may not be given for cultivation though applied for in the future.

I have also seen along with you (Mr Boon Tee) the 7+ odd acres of land of L. No 71 applied for by Mr Brett. I have no objection for its being given to him. I only pray that trees in the ~~neighbourhood~~ of the land shd not be cut as it (the land) is a place where the water flows. I have no further complaints in this matter as Mr Brett has told (in my presence) that he would not cut trees there & would let the water passage in statu quo.

I have stated in my petition that Mr Brett has cut trees in the vicinity of the water passage (Boon Tee). I wrote so in my petition as 7 or 8 trees were cut near the water passage & near the brick kiln close to the cooly lines of Mr Brett, in his portion of the L. No 70, now formed into L. No 86 & I thought on the ground that, if further opportunities were afforded for similarly cutting trees, the flow of the water would be very much impeded. Mr Brett & other planters have told me personally that if trees were allowed to grow near the water passage, they would absorb all the moisture. Bnt the experience of people here is otherwise. However I leave this point for the consideration & disposal of the Govt.

ABSTRACT.

Mr. Brett, Coffee planter obtained abot 5 or 6 acres out of the waste lands belonging to the village of Arur, with the consent of the villagers, and built a Bangalow there

Again in 1887, he applied for some more acres of land for Coffee cultivation, but the then Deputy Commr, seeing that the rights of the village would be put to much inconvenience refused

Mysore Govt. Central Press Bangalore—7-9-92,—1000.

issued to the Ryots endorse-
ment No. 29 of 2. 5. 87 —
informing them of his refusal.

Later, Mr. Brett
again applied for the
land, and the Ryots of
the village presented three
petitions to the present
Dy Commr, objecting to
the grant of the land to
Mr. Brett. But the Dy
Commr issued to him
endorsements Nos. 563, 13
and 35 to the effect that
their objections were not fit
to be taken into consideration,
as a Muchalika would
be executed by the Applicant to the
effect that he would not divert
the water course; and that
as the land in question
would be sold in auction
they were welcome to obtain
it.

Petitioner hears that
the land was sold to Mr. Brett
and that the sale is not

yet confirmed. He states that, in spite of his Muchelike, Mr. Brett will, after a time, surely cut off water from the gardens of the Petitioner and other ryots, and will give them much trouble, as they are not in good terms with him.

Petitioner, therefore, prays that the sale may be cancelled.

To,

The Chief Secretary to the
Government of Mysore.

Sir,

With reference to your Memo No Petition 698 of 3d 6th. Instant, I have the honor to submit a Memo showing (1) the date on which the petitioner Anlgar Lala Rao produced the Endorsement of 2d May 1887; (2) when he applied for its return, and (3) when it was returned to him, from which it will be observed that there was a delay of about 5 months in the Taluk, the Amildar's explanation therefor being that it was due to his having thought fit to return the Endorsement only after the final disposal

of the question of the sale of the land in dispute

With regard to the objection of the petitioner to the sale of any portion of the land out of Survey No. 70 × of Ganodi Village, I beg to state that when Mr. Skirving applied for about 50 acres out of the same Survey Number in 1890, Colonel Campbell, after a careful inspection of the land, over-ruled similar objections then raised by the villagers, and ordered the grant of the land.

On Mr. Brett's applying for about 16 Acres of the said Survey Number last year, the petitioner objected on the ground of its containing a water-course, and of its being used for removing 'Soppu' for the gardens below it, producing, in support of his objection, Mr. Meiklejohn's Endorsement

× measuring. Acres Guntas 384 - 7 Soppinkeretta

No more land than that already granted (about 25 acres) could be given to Mr. Bhatt, and that no land was given to another gentleman who had applied for some portion in the same Number."

No 29 of 2nd May 1887, the purport of which is annexed in the margin.

During my last year's Jama bandi, I took the opportunity of personally inspecting this land and passed the following order on 24th March 1892.

"I inspected this land on Feb: ruary 9th, 1892, and could at the time find no traces of the land having ever been used for 'Soppu'. The present area of 'Soppinbetta' is very extensive when compared with the garden cultivation, i.e., 563 acres to 71 acres of garden.

"In the event of the land being bought at auction the purchaser will execute a Muchalika to the effect that he will at no time divert the water from its present course. The District Surveyor shall proceed to the spot as early as possible and resurvey the land applied for in the presence of the parties concerned, or their agents,

when the land will be sold by auction. A copy of this order to be sent to Mr. Brett." (Note. An endorsement to this purport was given to the petitioner as well).

From the above the Government will observe that the objections of the petitioner cannot be entertained, and that Colonel Campbell and I were justified in granting portions of the Number to Messrs Stirling and Brett. I beg to state that objections similar to those raised by the petitioner are frequent in this part of the country, owing to the owners of Supari gardens' greed for Supari betta, which they do not really require to any large extent and regarding which there are no definite rules, and if acquiesced in would only prejudice the interests of Government, while they would not materially benefit others.

For these reasons I request

that early orders of government may be ~~94~~ kindly obtained for the sale (held on 7th September 1892) of the land to Mr. Brett, the highest purchaser, condoning the delay of 2 days in the receipt of the full amount of purchase money as recommended in this office No. 218 dated 1st November 1892, a copy of which is put up for ready reference.

I also beg to forward herewith for reference, if necessary, and kind return the Vernacular correspondence ending with No 352 dated 23d October 1892, which has the Jawodi Village map attached to it, with the disputed land marked in blue pencil.

The Petition and its enclosure received with Memo under reply are returned.

I have the honor to be,
Sir,
Your most obedient Servant,

H. H. Sparkes
Deputy Commissioner,
Kaira District.

Sir,

I have the honor to state that a portion of land, measuring about 16 acres out of S. No: 70 of the Tanoodi village, in the Koppa Taluk, was applied for by Mr. Brett for coffee cultivation and sold after due publication of the notice on 7th September 1892. Mr. Campbell, the agent of Mr. Brett, who was the highest bidder for Rs 164/; paid the balance of the purchase money 2 days after the due time, viz, on the 23d September last instead of on the 21st idem. His explanation for the delay is that owing to his absence from the

Estate he was unable to pay it in time.

I recommend that the explanation may be kindly accepted and orders issued condoning the delay and confirming the sale.

Order thereon

D

On the 8th Feby 1892 Mr. Brett applied for about 16 acres of land out of S. No 70 in the village of Tamoodi for coffee cultivation. The land was sold by public auction on the 7th Septr 1892, Mr Ellens for Mr Brett purchasing it for Rs 164. The usual deposit was paid but the balance of the purchase money was not paid till the 23rd Septr 1892. Thus there has been a delay of 2 days in the payment of the balance. In the Taluk Cutcherry of Koppa

The Muchalika executed by Mr. T. Brett of the Holankoday Estate, dated 4th May 1893:—

I applied for 16 and odd acres of land out of Survey No 70 in the Tanoodi village of the Koppa Hobli, and purchased them in public auction held thereupon, and they were granted to me. This Muchalika is executed in accordance with the Kadur Deputy Commr's order No 620, dated 8 February last, issued under Government Proceedings No 134-33 dated 1. 2. 93, directing that a Muchalika should be taken from me to the effect that the spring in the said land, which has been useful to the lands cultivated by the ryots of the village should not be interfered with. 249-92

In the said coffee jungle which has been granted to me there

there exists a spring from which water flows to the cultivated lands, wet as well as garden, of the ryots. I will leave the spring and the water-course undisturbed, and cultivate the lands on the two sides. Neither I nor my representatives will interfere with them, either by cultivating the bed of the stream or in any other way. Their present state will not be changed in any manner. If I fail to abide by this condition, the Government may enter upon ~~my~~ the said Coffee Estate of mine, and secure unobstructed supply of water from the above-mentioned spring to the wet and garden lands cultivated by the ryots, and I will raise no objection.

The Deputy Commissioner,
Kadir District.

Sir,

In reply to your letter of 22nd August, answer to which has been delayed owing to my absence, I have the honor to inform you that owing to the peculiar formation and general lie of the land under reference, it would be highly inconvenient and reduce the value of the land to nothing were even 5 yards cut off as proposed.

I infer this idea of prohibiting cutting of trees within 50 yards or 5 yards of a water course or spring is the old one as to reducing supply of water. No doubt in old days

when

when a system of entirely denuding the land of all forest trees such a regeneration, was necessary - but under the new system, only a small number of trees are felled, and bare patches at once filled up by planting evergreen trees.

In my experience, extending over 20 years in India, I have found it add to the volume of water to remove all water absorbing trees, such as amongst others are locally known as Kayles and Chinnamis. From them I have known a stream of water to run, out on the first cut with an axe. In one case I doubled the supply of water by removing all such trees

As I said before I do not place any high value on the land and am quite willing to

land equal to the value paid of the expenditure already incurred on the land.

I have spent some £120/- or 20, I think. I believe a piece of land could be obtained in the neighbouring village of Hunchiguallalloo. But I should like the business settled as quickly as possible as I wish to go on opening the land this season. I shall be away from Koppa from 10th October to 10th November.

I have &c

Signed Digby. J. Brett.

narrow & insufficient; that in the malnad tracts it is usual to allow 5 acres of jungle for soppinabetta for one acre of garden land; that according to this manual Petr would alone require about 165 acres of jungle for soppinabetta; that out of the 407 acres constituting Survey No 70, about 85 are under coffee cultivation and 80 or 90 more acres are fit for garden cultivation; the remaining being the soppinabetta; that if this land is given out for coffee cultivation, the Petr and other garden holders would find it difficult to gather leaves, rushes &c- for their use, the consequence being the destruction of their garden cultivation; and, that the plea of the Coffee planters that the villagers have about 300 acres of land for soppinabetta is unfounded-

Prays that the land encroached upon by Mr Britt, may be taken away from him and be attached to soppinabetta.

Also states that 16 acres of land were sanctioned to Mr Britt on the condition that 50 yards of jungle on either side of the channel conveying water-supply to his lands, should not be cleared and utilized for cultivation; that Mr Britt has against this order cleared the jungle on both sides of the channel for a certain length the remaining being yet left uncleared; and that thus the water-supply is ~~not~~ interfered with-

Adds that he learns that Mr Britt has also applied for a piece of land in Survey No 71 Gomal, for coffee cultivation and that the Dy Comr visited the spot on the 22nd october last-

Finally states that their garden cultivation is at a stake by the molestations of Coffee planters-

Prays that the two Survey Nos 70 & 71 may be reserved for soppinabetta to the villagers-

Kadúr District.

Sir,

In accordance with your remarks on Koppa Amildar's report No. 758 dated 28th Feby. last, forwarding papers relative to the Petition of Balgar Subba Rao of Koppa to Government (received with Rev: Secy's Offl. memo No: P.J. 249.92 dt 31st January 1896) Concerning Survey Nos. 70+71 of Tamdi, for a more detailed report after inspection and Enquiry, I have the honor to State that I inspected the Spot on the 25th Ultimo.

2.- The petitioner (Subba Rao) and Mr. Brett were also present on the occasion.

3.-

3.- The main points urged in the petition are:-

i, That Mr. Brett has unauthorizedly cultivated 69 acres & 20 Gunlas over & above the extent of 16 acres applied for by him in Survey No. 70;

ii, That Mr. Brett has, Contrary to his Muchalika, cleared jungle within 50 yards on either side of the Stream supplying water to Petitioner's lands below; and

iii, That the extent of about 7 acres now applied for by Mr. Brett should not be granted, as it will inconvenience the petitioner for leaves &c. for manuring, & fuel for preparing areca.

4.- With respect to the 1st point the Statements of the Village Shanbhoge and the petitioner taken before me shew that no such encroachment has been made as alleged in the petition; but the part comprizing A.G. 12-2 has been marked out as a Separate No. 88 and that marked as A.G. 86 Consists of 23-18. The petitioner now

[redacted]

now states that it is no encroachment, but that he inserted this Complaint in the Petition not knowing the real circumstance under which the latter number was granted to Mr. Brett.

5. With reference to the 2.d point I observed that Mr. Brett had cut only 3 or 4 trees near his Cooly lines within his own land to burn bricks and that there has been no indiscriminate felling of jungle, as may be seen also from the Statements of the Petitioner & Chandhanje. The Petitioner made mention of this in his petition apprehending that if more trees were felled, the same would affect supply of water from the jungle stream running towards his garden. Mr. Brett states that he is not going to cut any more trees there. So this item of Complaint falls to the ground.

6.- As regards the 3.d point, the petitioner states that he has no objection to the grant of

the

Brett in Survey No. 71, but adds that further grant of lands to any one for cultivation in either of the two (70 or 71) would tell upon the flourishing Condition of his extensive Supari garden and paddy fields adjoining them, in the way of supply of water, leaves for manure &c.

7. Anent his application for the lot (about) acres) in Sur: No: 71, Mr. Brett says that, as his Estate runs in close proximity with the above, he has applied for the said piece simply to prevent others from coming in & causing him unnecessary annoyance and bramble and that he is not going to cut any trees existing thereon. This is a piece of low ground in a small valley. I examined the jungle stream in the presence of the parties. It was quite dry. It is further far away from the petitioner's garden, and quite close to Mr. Brett's Coorly lines. Under these circumstances

grant of the land to W. Brett.
Petitioner too is not against it.
He only objects to further grants. When
the grant is made a Muchalika
may be taken to the effect that
the trees existing there would not
be felled.

8. The Petitioner's holdings are as per margin.

Only about 60 or 70 acres are Covered with

with trees. It is in the South-Eastern Corner of the Ro: which may be properly Styled as "Soppinabetta". The area of Sur: No: 71 is 43-20 A-G. It is borne in accounts as Ground. The piece now applied for by Mr. Brett is the South-Eastern Corner of the Number which adjoins S. Nos: 86 & 88 which are already granted to him for erection of buildings & Coolg lines. After deducting 7 or 8 acres applied for as above, about 35 acres would remain unoccupied. The petitioner begs that that remaining portion may be reserved, as he has his cattle to graze there. Under all these circumstances I beg to suggest that further applications for land in either of these members need not be entertained.

9. As regards the Extent of Soppinbetta allotted for gardens, there is no established data for the present, but on enquiry I understand that 5 acres of Soppinabetta to one acre of Supari garden is necessary to ensure readiness of supply of leaves &c. for gardens and fields attached to them

properly Concerns the portion of the Betta allotted to him by moderately Cutting leaves & wood. This point needs further investigation.

10. A rough sketch (duly revised) [redacted] shewing the position to the Nos under reference, of some of the Petitioner's lands, gardens & Cattle Sheds, as well as Mr Brett's holdings, Cooly lines & Co., is herein enclosed for reference.

11. The Petition & Amildar's report together with the Govt offl Memo under reply and the three Vernacular & English files of papers received are herewith returned as per Index.
